**Friday, March 03| Sakkara / Coptic Cairo**

Meals Included: Breakfast / Lunch / Dinner.

Our program begins at **Sakkara**, one of the richest archaeological sites in all of Egypt. Tombs and pyramids here date from the early Dynastic times into the Graeco-Roman era. Our special focus is on the Step Pyramid of king Djoser (Dynasty 3) that preserves invaluable information about architecture, engineering, and the cult of the pharaoh in the 27th century BC. We also visit the Serapeum, the vast catacomb for the burials of the sacred Apis bulls.

Lunch at Sakkara Palm Club.

After a late lunch, we head to Coptic Cairo, where we visit the **Hanging Church** ("al-Mu'allaqah") (4th–5th centuries AD), so-named because it was built on top of the south gate of the Roman Fortress of Babylon. We continue to the **Church of St. Sergius** (5th century AD) which is built over the cave in which the Holy Family is thought to have stayed. We then spend time at the **Coptic Museum** with its spectacular collection of manuscripts, ceramics, sculpture, and textiles that date from the earliest days of Christianity to early Islamic times.

Return to hotel and enjoy the remainder of the evening at your leisure.

Dinner at Felfela Restaurant.

Overnight in Cairo at the Marriott.

**Saturday, March 04| Giza**

This morning we drive to Giza for a very exclusive briefing held between the paws of **the Great Sphinx**. Afterward, we see the Great Pyramid of Khufu (Dynasty 4), and have the opportunity to ascend to the king's burial chamber. We also visit Khafra's Valley Temple with its alabaster floors and red granite walls.

Lunch at Andrea Restaurant.

After lunch at a local restaurant, we visit either the **Grand Egyptian Museum (GEM)** or the **National Museum of Egyptian Civilization** both of which have state-of-the-art exhibits.

This evening we are guests a reception at the headquarters of ARCE, meeting with Director Dr. Louise Bertini and members of her staff. Dr. Bertini will give us the most recent updates on ARCE's activities throughout Egypt. We then have dinner in a nearby Tabula Lebanese restaurant.

Return to the Marriott hotel for overnight.

### **Sunday, March 05 | Historic Cairo / Citadel / Egyptian Museum.**

Meals Included: Breakfast / Lunch.

We start the day visiting the **Zawiya-Sabil Farag Ibn Barquq**, an ARCE-project. Then we view Bab Zuwayla, the southern entrance to the original Fatimid settlement of Cairo that was founded in AD 969, meeting with the manager who led ARCE's conservation project.

We continue our walking tour to the **Sabil Mohammed Ali**. This elegant sabil (public fountain) built in 1820 was the first in Cairo to have gilded window grilles and calligraphic panels. It has been meticulously restored by ARCE, and features displays about Muhammed Ali who built the Sabil to honor his deceased son Tusun. We also see the cistern below the sabil and the schoolrooms in the kuttab (Quranic School) upstairs, which welcomed students until 1992.

We continue down **el Moaz Street**, the old main boulevard of medieval Cairo, with its magnificent examples of Mamluk architecture, passing el Azhar mosque, the center of Sunni jurisprudence, and then we explore the **Khan el Khalili suq**, located within a warren of ancient buildings.

Lunch at Naguib Mahfouz Restaurant.

After a late lunch at the Naguib Mahfouz restaurant in the center of the khan, we drive to the **Citadel** built by Saladin (ca. AD 1200) where we visit the Ottoman-style mosque of Mohammed Ali.

Dinner on your own. Overnight in Cairo.

### **Monday, March 06 | Meidum, Hawara, Lahun**

Meals Included: Breakfast / Lunch / Dinner.

Checkout after breakfast.

Today is devoted to visiting some of the less-visited, but very important, pyramids. Our first stop is the **Meidum Pyramid** (Dynasty 3–4), a highly experimental engineering project to create the first true pyramid. Probably begun by king Huni (3<sup>rd</sup> Dynasty), it was completed by his successor Snefru (Dynasty 4). Design flaws caused the structure to collapse sometime after its completion.

We continue to the **Hawara Pyramid** of Amenemhat III (Dynasty 12) that is built of millions of mud bricks once sheathed in limestone. Herodotus described the pyramid's enormous mortuary temple as a 3,000-room labyrinth.

Our next stop is the **Lahun Pyramid** of Senusret II (Dynasty 12). The builders of this 48-meter-high pyramid reduced the amount of work necessary to construct it by ingeniously using an already existing 12-meter-high limestone hill as its foundation and core.

Later you will be transferred to **Grand Aton Hotel** for check-in.

Dinner at hotel.

Overnight in Minya.

### **Tuesday, March 07| Beni Hassan Tombs / Tell el Amarna.**

Meals Included: Breakfast / Lunch / Dinner.

We visit some of the best examples of Middle Kingdom private tombs at **Beni Hassan** including those of the nomarchs (provincial rulers) of the area. The walls of the rock-cut tombs are covered with colorful scenes of industry, sports, hunting, and autobiographical texts.

We continue to **Tell el Amarna**, the city of Akhenaton and Nefertiti, where we visit the remains of the Aton temple and the palace, and the private tombs of the officials with their scenes of the life in the city and images of Akhenaten and his family.

Return to hotel and enjoy the remainder of the evening at your leisure.

Dinner at the Grand Aton hotel.

Overnight in Minya.

### **Wednesday, March 08| Tuna El Gebel/el Ashmunein**

Meals Included: Breakfast / Lunch / Dinner.

Checkout after breakfast.

This morning we visit the western-most of the boundary stelae of Akhenaten's city Akhetaten. Rock cut statues of the family stand by a long text that describes the foundation of the city.

We continue our drive south to **Tuna el Gebel** where we see the temple-tombs of Petosiris (4th century BC) and Isadora (2nd century AD), along with the Ibis catacombs that contain millions of ibis mummies given as votive offerings to the god Thoth.

Our next stop is **el Ashmunein**, ancient Egyptian *Khmun* ("8-town"), named for the group of eight deities (the ogdoad) who represented the world at creation. It was the main cult

center of Thoth, the god of healing and of wisdom. In the Graeco-Roman era it was known as Hermopolis after Hermes, the Greek name for the Egyptian god Thoth. Here we visit the ruins of a temple of Amunhotep III with its colossal statues of baboons and the Graeco-Roman agora.

Later you will be transferred to **Sohag Hotel** for check-in.

Dinner at hotel.

Overnight in Sohag.

#### **Thursday, March 09 | Athribis / White Monastery / Red Monastery**

Meals Included: Breakfast / Lunch / Dinner.

Checkout after breakfast.

This morning we head to **Athribis**, the site of a temple dedicated to the goddess Repyt (Triphis) constructed under the reign of Ptolemy XV Caesarian and later Roman emperors.

We continue to the 5<sup>th</sup> century **Red Monastery** (Deir al Ahmar). Since 2003, ARCE has undertaken a massive conservation project of its sanctuary and the nave with its spectacular paintings of saints and the Holy Family which, until ARCE's intervention, were almost completely obscured by centuries of soot. We meet with Dr. Nicholas Warner, the project director, who will tell us about the project.

After lunch at the Red Monastery, we visit another ARCE project, the **White Monastery** (Deir al-Abyad), also from the 5<sup>th</sup> century AD. Named for the color of its masonry, the monastery was built by the Coptic saint Shenouda using chunks of white limestone taken from local pharaonic temples.

Drive to Abydos and check in at **House of Life Hotel in Sohag**.

Dinner at hotel.

Overnight in Abydos.

#### **Friday, March 10 | Abydos / Dendera**

Meals Included: Breakfast / Lunch / Dinner.

Checkout after breakfast.

Meet your guide in the lobby and drive to **Abydos**, where we tour the temple of Seti I at Abydos, the walls of which are carved with some of the most beautiful reliefs in all of Egypt showing the rituals that were enacted in the temple.

We drive south to the temple of Hathor at **Dendera**, one of the best-preserved Ptolemaic temples. The temple has recently been conserved, revealing the brightly painted astronomical ceilings.

Later you will be transferred to Steigenberger Hotel for check-in.

Dinner at hotel.

Overnight in Luxor.

We spend the day on the west bank at Luxor, exploring the New Kingdom tombs and temples. We see the **Colossi of Memnon**, the remains of the vast temple of Amenhotep III (Dynasty 18), and **Medinet Habu**, the walled complex of Ramesses III (Dynasty 19), where we meet with members of the University of Chicago team who will tell us about their work.

We continue to the **Valley of the Queens** that served as the burial site of queens and some royal children of the 19<sup>th</sup> and 20<sup>th</sup> Dynasties (1292–1075 BC). Our visit includes the **tomb of Nofertari**, the chief wife of Ramesses the Great that is famed for its paintings of the queen before the gods.

After lunch at the charming Marsam restaurant with a view of the ruins, we continue to the **Valley of the Kings** to visit the rock cut tombs of New Kingdom pharaohs including of Ramesses VI and Tutankhamun. We meet with the project director of one of the conservation projects. We make a stop at the **house of Howard Carter** who discovered the tomb of Tutankhamun. The house has recently been conserved and restored by ARCE.

Return to hotel and enjoy the remainder of the evening at your leisure.

Dinner on your own

Overnight in Luxor at the Steigenberger Hotel.

### **Sunday, March 12| Luxor, West Bank**

Meals Included: Breakfast / Lunch / Dinner.

We continue our exploration of the west bank to visit several ARCE projects. The first is the **Qurna Site Improvement Project** (2011–2014) that was developed in response to the demolition of the village of Sheikh Abd el Qurna and el Khokha, and the economic crisis that followed the 2011 Egyptian Revolution. ARCE managed a site presentation project, clearing debris, creating pathways, and opening groups of tombs to visitors. The project was also designed to employ hundreds of locals who were left unemployed when tourism paused following the 2011 revolution.

We also visit the **tomb of Menna** (Dynasty 18) to see the beautiful wall paintings that were conserved, documented, and published by ARCE.

### **Tuesday, March 14| Dier el Medinah / Hatshepsut Temple / Ramesseum Temple.**

Meals Included: Breakfast / Lunch / Dinner.

We return to the west bank to continue our exploration of the funerary monuments. Our first stop is **Deir el Medina**, the town that housed the workers and craftsmen who built the tombs in the Valleys of the Kings and Queens. We walk through the village and visit some of the small rock-cut tombs with their brightly painted religious scenes.

We continue to the **Temple of Queen Hatshepsut** at Deir el Bahri. Hatshepsut (Dynasty 18) was the most significant of Egypt's female rulers. Her terraced temple is most famous for the scenes of her trade mission to the land of Punt on the Red Sea. The temple was a focus of New Kingdom festivals, and it continued to be a place of pilgrimage into the Christian era. We then visit the **Ramesseum**, the temple of Ramses the Great (Dynasty 19), the pylons of which are decorated with scenes of the battle of Kadesh.
